South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Robin Burt

**Subject:** No rate hike for Duke's use of polluting fossil fuels

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

No more words or promises. Let's see Duke actually invest in safe (therefore not nuclear), renewable energy like solar, wind and others in a big way. Enough of creating pollution with fossil fuels, and then turning around and asking for a rate hike. We all deserve to live in a world that has clean air to breathe, so stop the pollution! I'll agree to a rate hike when I see Duke actually making a big change over from fossil fuel to safe alternative renewables.

Sincerely,

Ruth Stambaugh  
93 Bird Creek Estate Rd  
Black Mountain, NC 28711-8622
